OUR STORY

“Bathco” creates their own quality standard Mark in kitchen sink segment.

Since 2009, **Bathco** has focused in carving the perfect sink to add grace to your kitchen interior. The company has today evolved as one of the leading manufacturer of kitchen sinks, delivering range of stainless steel sink

Our company and products are certified by international quality standards organizations, such as ISO 9001. Our R&D team constantly strives to introduce the most innovative designs of kitchen sink with the help of best state of art technology. **Bathco** offers the ultimate in stainless steel quality and craftsmanship together that suit Indian conditions, style and yet carry an international appeal.

We are providing several high end kitchen sink collections with a wide range of size & finish that will help you to find the best sink for your kitchen. If you want to enhance the functionality of your kitchen and increase the value of your home, **Bathco**'s kitchen sink should be first on your list.

SUCCESS STORY OF BATHCO

One of the most important assets a company can have is the ability to evolve with the times; Bathco always works on it and developing innovative product with the help of latest technology. From a small side to one of the industry leaders, the success of Bathco has often been cited as one of the best examples of company growth stories. Inception 2009, Bathco are serving innovative product like Oval Bowl sink , State Bowl sink , Handmade sink , Quartz Sink and diamond sink collection.

CARE & CLEANING

Bathco sink is made from the finest nickel bearing stainless steel. Bathco sink is solid stainless steel and with proper care and maintenance, will give you a lifetime of service.

- General cleaning :
For everyday cleaning, mild soap or dish detergent is enough to prevent discoloration or dulling.
- Bathco offers bottom grids and wire baskets to help protect the sink from scratches. Do not use a rubber mat on your stainless steel sink. Water and other residue gets trapped between the rubber and the sink, causing permanent staining overtime, if left untreated
- Choose a non-abrasive cleaning tool Sponges, soft cleaning pads, cloths, or bristle brushes are the best tools for scrubbing stainless steel.
- Wipe the sink dry. Water that evaporates on the sink surface can leave behind white spots, especially if you use hard water.
- Avoid storing open containers of household cleaners and chemicals containing chloride such as bleach, acid, drain cleaner and toilet bowl cleaner beneath the sink, Vapour emission from the chlorides can cause corrosion and pitting to the exposed stainless steel and other metals. If any of these chemicals are used in the sink, rinse it immediately with plenty of clean water and dry thoroughly.

SINK REFERENCE GUIDE

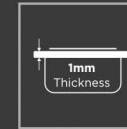

304 Grade

Grade 304 is the standard molybdenum-bearing grade, the molybdenum gives 304 better overall corrosion resistant properties, particularly higher resistance to pitting and corrosion in chloride environments. Available on Signature series sinks.

202 Grade

Bathco sinks are made from premium-grade 202 steel. a heavy-duty material, for the high level of durability and reliability.

1mm Thickness

Bathco uses 1mm thick steel for most of its series. This makes the sinks less vulnerable to denting and bending even after years of receiving knocks from utensils

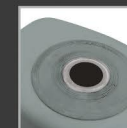

0.8/0.6mm Thickness

Thicker steel means a stronger sink. rowa/zeel Series is made with high grade 0.8/0.6mm thick 204 stainless steel, this series is exceptionally long-lasting and dent-resistant

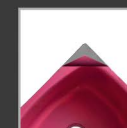

Smart Drain

This round shaped drain with its unique design helps in hassle free waste disposal. It keeps your drain clog free. Easy to clean and use it is a hygienic alternate to regular drain.

Undercoat with Sound Suppression Pad

Bathco use special grade sound-suppression pads and undercoating. The main advantages of this special feature are that it absorbs sound, protects against condensation build-up inside kitchen cabinets and helps to maintain sink water temperature.

Plastic Protective Film

Our Sinks Comes With Plastic Film It Prevents Scratches Or Marks During Installation.

Our Stainless Steel kitchen Sinks comes with superb eye catching design made up of finest quality stainless steel that combined a sleek Contemporary Style.
